HARLAND-INDENG-MONOFLO END SUCTION PUMPS

Performance at 2950 r.p.m.

We offer new pumps as well as spare parts for the Monoflo range. We carry some spare parts off the shelf and can offer complete rebuilds in our workshop.

The Indeng Monoflo range of end suction pumps are reliable and enduring, as most models are still interchangeable with the original Harland pumps made over 40 years ago (with the exception of the shaft extension).

- > The discharge flange can be rotated in 8 different positions.
- > Available with a packed gland or mechanical seal.

We carry a wide range of components for servicing the Harland Indeng pump range, including shafts and sleeves.

Please call us for all your requirements and note if you are only requesting a pump curve, there is a nominal fee of \$5.00 incl. GST for processing and sending.
